Insights & Recommendations

Summary

🏦 **Business Snapshot**

- Portfolio grew 0.22B → 0.46B (~2x growth)
- Private clients contribute ~46% of total wealth
- ~75% customers fall under medium risk

Risk

⚠️ **Medium Risk Dominates Portfolio**

- ~74.8% customers fall under medium risk
- ~3% customers are high risk
- Large portion sits in a convertible risk segment

👉 **Focus:**

- Gradually move medium-risk → low-risk customers
- Use targeted financial advisory

🔴 **Risk (Regional Analysis)**

- 🌍 Europe Shows Highest Risk Exposure
- Europe has the highest risk score and loan exposure
- Indicates strong regional concentration of risk
- 👉 **Risk:**
- Over-dependence on a single region increases portfolio vulnerability
- 👉 **Focus:**
- Diversify lending across regions
- Implement stricter region-specific risk controls

Overview

📈 **Strong Portfolio Growth**

- Portfolio expanded 0.22B → 0.46B (~2x growth)
- Indicates consistent business expansion

👉 **Focus:** Upsell investment products to high-value customers

Finance

💰 **Private Segment Drives Value**

- Contributes ~45–46% of total net worth
- High-net-worth clients are primary revenue drivers

👉 **Focus:**

- Personalized wealth management
- Premium investment offerings
- Strong relationship management

💳 **High-Income Segment Dominates Lending**

- Contributes ~2.7B in total loans
- Lending heavily concentrated in affluent customers

👉 **Risk:**

- Middle-income segment underutilized

👉 **Focus:**

- Expand loan offerings to middle-income customers
- Balance exposure across income groups

Customer

👥 **Senior Customers Drive Wealth**

- Seniors contribute highest net worth (~1.46B)
- Represent key high-value segment

👉 **Focus**: Retirement plans, low-risk investments, estate planning
